CITY HALL BUILDING.

OFFICERS—President, John L. King; Vice President, Daniel L. Harris; Clerk, William Rice; Treasurer, J. D. Safford; Directors, Geo. Bliss, Chester W. Chapin, J. M. Thompson, George Walker, Charles Merriam, J. G. Holland, James Kirkham, E. W. Bond, John B. Stebbins, Samuel Bowles; Auditors, O. H. Greenleaf, R. F. Hawkins.

LIBRARY.

LIBRARIAN, William Rice.

Number of volumes June 1867, about 23,628 exclusive of unbound pamphlets. The additions during the past year amount to 2,189 volumes. The Directors intend to purchase all the new works of popular interest as they appear, and are also continually adding to the Library standard works of permanent value in the various departments of literature, science and art. There are now about 1,600 subscribers. During the last year the circulation amounted to about 90,000 volumes.

The Library is open for drawing books on Tuesdays, Thursdays and Saturdays, from 9.30 A. M., till 12.30 P. M., and from 3 to 5 P. M.; also on Wednesday, Friday and Saturday evenings from 7 to 9 P. M. Subscriptions, $1.00 per annum, for which two volumes can be drawn at once, and be exchanged every Library day.

Museum.

Curators, R. B. Hildreth, C. A. Emery, C. W. Bennett, J. A. Allen, and Solomon Stebbins.

This institution originated in 1860 with the Library Association, and two rooms were assigned to it in the City Hall, which have been fitted up with appropriate shelves and cases, and now contain about 1,500 species and upwards of 3,600 specimens of shells, classified by Dr. George A. Otis, recently Surgeon of the 27th Massachusetts Regiment; also 7,407 specimens of insects, 481 specimens of stuffed birds; 104 stuffed quadrupeds, including two enormous wildcats, killed in this country; 115 species of fish and reptiles; small cabinets of coral and crustacea; an extensive mineralogical cabinet; a large and very curious collection of fossils; numerous Indian and foreign antiquities, and several flags and various other trophies captured from the Southern rebels by our home troops. Additions are frequently made by the generosity of our citizens, and our Museum is in quite a flourishing state for so young an institution. The Museum is open and admission free to the public on Saturday evenings. At other times a permit from the Librarian or one of the curators is requisite for admission. Donations for the Library or the Museum may be left with the Librarian.

Springfield Cemetery Association—George Bliss, President; Lewis Gorham, Clerk and Treasurer. The Cemetery grounds cover an extent of nearly forty acres, and from their opening in June, 1841, to January, 1867, 6,290 interments have been made in them, 210 of that number being from January, 1866, to January, 1867. The whole amount received for lots from May, 1866, to May, 1867, was $3,290.79.

Principal Public Halls in Springfield—City Hall, having seats for 2,700 persons. Application for the Hall to be made to the City Clerk. Music Hall, corner of Main and Pynchon streets, owned by Tilly Haynes, will seat 1,200 persons, is rented for lectures and first class entertainments only. Union Hall, adjacent to the Union House, South Main street; Rice's Hall, State street, Massasoit Hall, in Fallon's Block, and Lincoln Hall, in Brown & Pinney's Block, near the Water Shops, are all commodious and pleasant places for assemblies, meetings, etc.

PLACES WORTHY OF NOTICE FROM STRANGERS.

The City Hall, fronting Court Square, erected at an expense of $100,000, ranks among the finest buildings in New England. It has an audience room capable of holding 3,000 persons, and accommodations for all city officers, Police Court, City Library, and City Museum.

The Cemetery—In the south-easterly part of the city, has its main entrance from Maple street, near its junction with Central street, with an entrance for carriages also from Pine street, and for people on foot from Mulberry and from Union streets. It has great natural advantages of location and scenery, combining a fine vari-

ety of hill and dale, and is constantly being beautified and adorned by the hand of art.

THE UNITED STATES ARMORY—Has undergone much improvement and enlargement during the war, but the reduction of the force employed has of late been very great. The following comparative statistics will show the vast increase in the business of the armory: In the month of April, 1861, there were 504 men employed; in April, 1862, there were 1912; and in April, 1863, 2635. The number of muskets fabricated in April, 1861, was 1202; in May, 2000; in June, 3000; May 1863, 25,000; April, 1864, 26,000. The destruction of some of the buildings by fire, July 2, 1864, reduced the production to 15,000 per month for six months, when it was increased to 25,000 till July 1st, 1865, since which time, but few guns have been fabricated. The greatest number of men employed at any one time during the war was 2,992; 828 men were employed May 1st, 1866, the entire force being engaged in repairing old guns; July 1st, 1867, there were 1220 men engaged in repairing arms and altering Springfield muskets of the pattern of '64, into breech-loaders. During the six months ending July 1, 25,080 of these muskets were remodeled.

HAMPDEN PARK—Inaugurated September 29, 1857. Purchased and improved by the Hampden County Agricultural Society at a cost of $31,600, for an exhibition ground; "the finest and most convenient location the Society could have fixed upon, and unsurpassed for beauty and fitness by any lot devoted to a similar purpose, in the world." These grounds, sixty acres in extent, enclosed on the river side by a costly levee, on the other side by a substantial fence, contain a splendid barn, with stalls for cattle and horses, and extensive sheds in addition, devoted to a like purpose; a mile and also a half mile track, graded and kept in good condition; a range of seats three hundred feet long; and a judge's stand, tasteful in appearance and permanent in construction. Here have been held the far-famed Springfield Horse Shows, and the annual Cattle Shows of the County Society. Its use as a public park is strikingly appropriate, for it was the first lot of land granted by the early settlers, within the first month after their arrival in 1636.

GREAT FRESHETS—*Highest Rise of Water in Connecticut River*—1801, twenty-one feet six inches; 1843, April 18, twenty feet eight inches; 1854, May 1, twenty-two feet four inches; 1856. August 21, eighteen feet nine inches, (Camp Thompson inundated); 1859, March 20, twenty feet six inches; 1862, April 20, twenty-two feet two inches (Hampden Park flooded); 1865, March 18, eighteen feet ten inches.

POPULATION OF SPRINGFIELD—Census of 1865, Ward 1, 3,775; Ward 2, 3,417; Ward 3, 4,051; Ward 4, 2,880; Ward 5, 3,470; Ward 6, 1,405; Ward 7, 1,494; Ward 8, 1,546; total, 22,038. A large number left the Armory before this census. In 1860, the population of the city was 15,200; in 1867 (estimated), 30,000.

Y. M. CHRISTIAN ASSOCIATION.

THE Young Men's Christian Association of Springfield offer a pleasant place of resort for evenings and leisure hours, enable young men to become acquainted with each other and welcome and befriend strangers. Rooms in new Insurance Building, 211 Main Street, second floor; open from 9 A. M. till 10 P. M. The leading political and religious newspapers, daily and weekly, together with the magazines, may be found here.

President, Charles Marsh; Vice Presidents, O. S. Greenleaf, H. W. Hallett; Secretary, W. H. H. Wooster; Treasurer, William H. Hawkes; Directors, F. A. Brewer, J. D. Safford, F. H. Sterns, G. F. Green, C. A. Jacobs, H. R. Stockbridge, Henry Hutchinson, H. S. Bushnell, H. F. Foster.

HOME FOR THE FRIENDLESS.

No. 23 West Union Street, Springfield.

OFFICERS—Mrs. Charles Merriam, President; Mrs. William Rice, Mrs. James Barnes, Vice Presidents; Mrs. Geo. Walker, Recording Secretary; Mrs. T. S. Chaffee, Recording Secretary, pro tem.; Mrs. J. R. Hixon, Corresponding Secretary; Mrs. F. J. Parker, Treasurer.

MATRON—Mrs. A. M. Phillips.

ADVISORY COMMITTEE—Rev. Mr. Buckingham, Rev. Mr. McKnight, Hon. George Walker, D. H. Brigham, O. W. Wilcox, Charles Marsh, A. L. Soule.

The Board of Managers consists of two ladies from each religious society in town. Applications for admission may be made at the Home on Wednesday and Saturday afternoons, between the hours of 3, and 5.

SPRINGFIELD POST OFFICE.

SUMMER TIME TABLE—Post Office open from 7 A. M. to 8 P. M.; Sunday from 9 to 10 A. M. Mails close—Northern, 7 A. M., 1 P. M.; New York, 11¼ A. M., 5 and 9 P. M.; Connecticut, 11 A. M., 1 and 5 P. M.; Washington, 5 P. M.; Eastern, 6¼ and 10½ A. M., 8 P. M.; Western, 8 A. M, 5¼ P. M.; Chicopee Falls, 6¼ and 11¼ A. M.; Agawam, 8 A. M.; Feeding Hills and West Suffield, 1 P. M.; East Longmeadow and South Wilbraham, daily, at 1 P. M.; West Springfield, 8 A. M., 1 P. M.; Sunday night mail, for Boston and New York, 7 P. M. Delivery of mails—Northern, 12 M., 6½ P. M.; Southern, 7 and 11½ A. M., 1¾ P. M.; Eastern, 7 and 9 A. M., 12 M., 6½ P. M.; Western, 7 and 12 A. M.

WINTER TIME TABLE—Post office open from 7½ A. M. to 8 P. M.; Sundays, from 9 to 10 A. M. Mails close—Northern, 7 A. M., 1 P. M.; New York, 11¼ A. M., 5 and 9 P. M.; Washington, 5 P. M.; Connecticut, 11 A. M., 1 and 5 P. M.; Eastern, 6¼ and 11¾ A. M., 8 P. M.: Western, 8 A. M., 5¼ P. M.; Chicopee Falls, 6¼ and 1¼ A. M.; East Longmeadow and South Wilbraham, daily at 1 P. M.; Agawam, Wednesday and Saturday at 1 P. M.; Sunday night mail, for Boston and New York, 7 P. M.; Mails arrive—Northern, 12 M., 6½ P. M.; Southern, 7 and 11½ A. M., 1¾ P. M.; Eastern, 7 and 9 A. M., 12 M., 6½ P. M.; Western, 7½ A. M., 12 M.

BANKS, BLOCKS, HOTELS, AND INSURANCE COMPANIES.

BANKS.

Agawam National Bank, Main street, east side, corner Lyman street.
Chicopee National Bank, Main street, west side, corner Elm street.
First National Bank, Main street, east side, opposite Court square.
Five Cents Savings Bank, West Court street, opposite Court square.
Hampden Savings Bank, at Agawam National Bank, Main street, east side, corner Lyman street.
John Hancock National Bank, Main street, west side, corner Fort street.
Pynchon National Bank, Main street, west side, near State street.
Second National Bank, (formerly Springfield Bank,) Franklin Block, corner of Main street and Townsley avenue.
Springfield Institution for Savings, Company's new building, corner Main and State streets.
Third National Bank, Barnes' Block, Main street.

BLOCKS.

Allis' Block, North Main street, west side, between R. R. Depot and Cypress street.
Allis' New Block, Main street, North of R. R. Depot.
Barnes' Block, (stores,) Main street, west side, opposite Harrison avenue.
Barnes' Block, (dwellings,) East Bridge street, south side, midway between Main and Chestnut streets.
Brewer's Block, Brewer's Court, North Main street.
Bridgman's Block, Main street, west side, near corner of Howard street.
Burbank's Block, corner of Stockbridge and Willow streets.
Burt's Block, Main street, west side, corner Bliss street.
Bush's Block, South Main street, opposite Howard street.
Byers' Block, Elm street, south side, opposite Court square.

Chicopee Bank Block, Main street, west side, corner Elm street.
Colton's Block, Howard street, north side, near river bank.
Commercial Block, corner Main and Hampden streets, formerly called Patton & Loomis' Block.
Day & Jobson's Block, North Main street, west side, cor. Cypress street.
Dunham's Block, corner North Main and Ferry streets.
Fallon's Block, Main street, near Vernon street.
Franklin Block, corner Main street and Townsley avenue.
Foot's Block, Main street, west side, corner West State street.
Fort Block, Main street, west side, corner Fort street.
Goodrich Block, Main street, west side, corner Hampden street.
Granger's Block, Main street, south of Union House.
Gunn's Block, opposite Armory Grounds, East State street.
Hampden Hall Block, Main street, east side, corner East Court street.
Hampden House Block, Main street, west side, corner West Court street, and opposite Court square.
Harthan's Block, river bank, foot Pynchon street.
Haynes' Hotel Block, corner Main and Pynchon streets.
Hubbard's Block, East street, south side, corner Walnut street, and opposite Armory grounds.
Kirkham's Block, East State street, south side, opposite Armory grounds.
Kirkham's Block, West State street, north side, near Main street.
Lincoln Hall Block, Mill street, near Water Shops.
Massachusetts Mutual Life Insurance Block, south of Franklin Block.
Massasoit Block, Main street, west side, next south of R. R. Depot.
Music Hall Block, Main street, west side, corner Pynchon street.
Old John Hancock Bank Block, East State street, south side, opposite Armory grounds.
Old Post Office Block, Elm street, south side, near Main street, and opposite Court square.
Pynchon Bank Block, Main street, west side, between State and Elm streets.
Pynchon House Block, Main street, east side, corner Lyman street.
Rice's Block, East State street, south side, opposite Dwight street.
Savings' Bank Block, north-east corner Main and State streets.
Shaw's Block, Main street, opposite Barnes' Lot.
Stebbins' Block, North Main street, near Carew street.
Stockbridge Block, Main street, East side, corner Stockbridge street.
Taylor & Olmstead's Block, Main street, corner of Taylor street.
Trask's Block, river bank, near foot of Pynchon street.
Townsley's Block, Main street, opposite Vernon street.
Union Block, Main street, east side, corner Harrison avenue and opposite Pynchon street.
Walker's Block, East State street, south side, corner Maple street.
Western Railroad Buildings, Main street, east side, south of and adjoining railroad track.
Wilcox Block, Main street, west side, between Worthington and Fort streets.

HOTELS.

Carlton House, Hampden street, south side.
Cooley's Hotel, Main street, east side, corner Liberty street, north of R. R. Depot.
Eagle Hotel, East State street, south side, opposite Government square.
Exchange Hotel, Main street, west side, between Elm and State streets.
Gruendler's Hotel, West Bridge street, south side, corner Water street.
Hampden House, West Court street, corner Main street, and opposite Court square.
Haynes' Hotel, corner Main and Pynchon streets.
Massasoit House, Main street, adjoining R. R. Depot, south side.
Myrtle Street House, Myrtle street, between State and High streets.
Nayasset House, Railroad Row, adjoining R. R. Depot, south side.
Park Street House, Main street, east side, corner Park street.
Pynchon House, Main street, east side, corner Lyman street.
Rockingham House, East State street, south side, corner Walnut street.
Sanford Street House, corner of Sanford and Market streets.
Union House, Main street, west side, corner Bliss street.
United States Hotel, Main street, east side, nearly opposite Howard street.

INSURANCE COMPANIES.

Massachusetts Mutual Life Insurance Company, office new block, 209 Main street.
Springfield Fire Assurance Company, office second floor Chicopee Bank Block.
Springfield Fire and Marine Insurance Company, office second floor Fort Block.

New Buildings.

NEW CHURCHES.

The church edifice of the Memorial Congregational Society, on North Main street, at the junction of the Plainfield road and Bradford street, is now in process of construction. The masons commenced work upon it in November, 1866, and after bringing the foundations above the surface of the earth, work was suspended for the winter. It was resumed again April 1st. The carpenters began operations June 1st, 1867. The edifice will probably be completed ready for dedication in November, 1867. R. & R. M. Upjohn of New York were the architects; Ponsonby & Maginn of that city have charge of the mason work, and Mr. Edward Cooley, of this city, the oversight of the carpenters. The style of architecture is gothic; the walls are to be built entirely of Monson granite. Those walls around the south end, and the east and west side, as far back as the south side of the transept, which will have to sustain only the weight of the smaller roof, will be but twenty inches in thickness; the wall from the south side of the transept toward the north end of the edifice will be two feet thick. The distance on the inside, from the extreme point of the octagonal end at the south, to the rear of the chancel at the north end, is 137 feet, 31 feet extending back through the octagonal lecture-room to the screen which separates it from the main audience room, and 106 feet carrying it to the rear of the organ recess. The width of the audience room, inside, is 54 feet; the transept recesses, on the east and west side, are 15 feet deep and 30 feet long. The ridge of the transept roof on the outside, measures 92 feet. The length of the ridge of the principal roof, from the intersection with the hip roof above the octagon, to the rear of the building, is 108 feet, and its hight on the inside, from the floor of the audience room, 51 feet. The principal rafters, extending from the ridge to the plates, are 26½ feet long. These plates rest on iron pillars. The short rafters, running at a less acute angle back to the walls, are 17 feet in length. The chancel will be 22 feet deep, by 29 feet from east to west. The organ will have its position first in the rear, then the singer's seats, and the desk for the pulpit. On the west end of the chancel there is a door to the minister's private room, 16 feet by 19, on the same level with the floor of the chancel, and 12 feet from floor to ceiling. On the east end a door opens into the committee room. Over this, and also

over the pastor's room, there is a room convenient for Bible classes, etc. These will be of the same dimensions as those below them, and will be 10 feet from floor to ceiling, and surmounted by a French roof. The entrance to these is from the galleries over the transept recesses. The lecture room in the octagonal southern end is to be 10 feet from floor to ceiling. Separating it from the audience room is first, a wainscoting, some three feet high, extending across the building; above this is to be a movable screen, probably of ground glass, which can be taken away in case of great gatherings, to throw the lecture room open to the larger portion of the house. Above the lecture room there is a gallery. There is one entrance through the tower on the east side, one on the west side, opposite; and one each from the east and west side, through the transept, thus making four ways of ingress and egress, a desideratum not often obtained in the construction of churches. At each of the angles of the octagon there are buttresses extending, up, 42 feet, from the foundations, and terminating in stone-capped pinnacles. The tower, on the east side, near the south end, is 19 feet by 25, at the base, and 88 feet high, the top presenting the same horizontal surface as the base. The four windows in the southern end are of gothic style with tracery tops; two of the same size are on each side of the audience room. The galleries above the transept are lighted by smaller windows of the same style. In each gable end of the transept there is to be a magnificent arched window, ten feet across, and one in the rear of the building. Thus not only the audience room, but all the apartments of the edifice will be well lighted, and with good effect throughout.

The new edifice for the CHURCH OF THE UNITY, (Unitarian,) designed by H. H. Richardson of New York, will be an architectural ornament to Springfield and the Connecticut Valley of which our citizens may well be proud. It is to be built in the Italian Grecian style of architecture. The material is brown stone from the Longmeadow quarries. The length of the building from the front to rear is 150 feet, including the chapel. The length of the audience room alone is 120 feet. The width is 56 feet. The height from floor to the apex of the roof is 56 feet. The height of the clear story wall is 34 feet, on the outside; and that of the lower walls 17 feet. The height of the front to the cross at the apex of the gable is 64 feet. At the north-west corner a tower, 18½ feet square at the base, extends aloft, terminating in a spire, the point of which is 144 feet from the ground. The width of the main nave, between the columns is 40 feet, and that of the side naves 7½ feet each. The clear story walls, on the inside, are 30 feet high; the lesser walls 14 feet. There are to be seven stone columns between the main, and each of the side, naves, with twelve arched windows on each side, six of which will be in the clear story. On each side there is to be a rose circular window with lancet windows on either side of it. Between the two rows of windows and extending entirely round the inside of the church, there will be an ornamental frieze. On this will be emblems and texts of Scripture. The pews are to be of unpainted chestnut. Similar in

finish will be the pulpit, which will have an elevation of several feet from the floor. Behind it will be the recess for the organ, with seats for the choir in front. The dimensions of the chapel, or Sunday school room, are 55 feet in length, and 24 feet in width. There are to be two entrances into the tower, one on the west, and the other on the north, side of it. Opposite them will be two other entrances into the church, one from the east side and one from the front or north side. Ponsonby & Maginn of New York are the masons, and John Marshall of that city does the carpentry. Work was commenced March 1st, 1867, and it is intended to have the church ready for dedication in July, 1868. Pleasantly located, 75 feet back from the south side of East State street, a few rods from Maple, and directly opposite the site of the proposed new city library building; built in the most appropriate style of architecture, and adorned with the choicest inventions of art, it will take rank among the best houses of worship in the country.

The State Street Baptist Church, of which we give a handsome engraving, is nearly completed. The corner stone was laid in August, 1865, and the work commenced at that time. The extreme length of the edifice is 110 feet; the width, including the tower, is 104. The height of the audience room is 48 feet. There are two towers—the one in front, through which is the principal entrance to the church, and one in the rear—the former 164 feet high, and the other 75 feet. The chapel, in the west end of the church, was dedicated July 8, 1866, and since that time the society have worshiped there. S. S. Woodcock of Boston was the architect, A. S. Dwelly & Co. did the stone work, J. W. Hawkes the brick work, and A. G. Carpenter & Co., of Westfield, the slating.

The Church of the Asbury Chapel, or First Methodist Society, on the corner of Florence and Hancock streets, was dedicated Saturday, November 24, 1866, Rev. Bishop Mathew Simpson, of Philadelphia, preaching the sermon. The corner-stone was laid September 15, 1865. The frame was raised in April, 1866. The building is 76 feet long by 50 wide. With the tower in front and a recess in the rear, 18 feet by 15, the entire length is 103 feet. From the base of the tower to the point of the spire the distance is 132 feet. The Ionic style of architecture predominates. Chauncey Shepard of this city designed the plans and superintended the work. The society worshiping in this church is the parent of all the other societies of that denomination in this city. The Asbury Chapel, their former house of worship, was built in 1821. Two weeks after the first stroke of work upon it, services were held within it. The cost of building was a little over $300, that being the amount of the building fund subscribed. Ten years ago it was remodeled and enlarged.

The "Bethel Church" of the Second Advent Society was dedicated July 10, 1867. It is pleasantly located on the north side of Vernon street, a few rods from Main, is a one-story Gothic building, of wood; and has a front of 36 feet and a depth of 66 feet. The audience room is 35 feet by 55, and has a height of 20 feet from floor

STATE STREET BAPTIST CHURCH. (See p. 30.)

to ceiling. The vestibule extends nearly across the building, and is 10 feet in width. From the vestibule a stairway connects with the vestry in the basement, which is 10 feet high, and extends under the whole building. Mr. J. M. Currier of this city is the architect. This is the first church edifice erected by any society of that denomination in Western Massachusetts. There is an opinion gaining ground very fast among them that the building of sanctuaries—the establishment of permanent religious homes for their people—conduces to their prosperity and effectiveness as a denomination; and the Springfield brethren have taken the initiative step in the matter of church building.

PUBLIC BUILDINGS.

An imposing structure, four stories high, on the corner of Main and State streets, is the property of the SPRINGFIELD INSTITUTION FOR SAVINGS; and their banking room is in the south-west corner of the first story. It is one of the most attractive and convenient business rooms in the city, or in the State. The wainscoting is of black walnut with butternut trimmings; and the counters, made upon a plan designed by Herter of New York, form an item worthy of mention. The fire and burglar proof vault, containing one of Herring's magnificent safes of 9,000 pounds weight, is probably unequaled by anything of the kind in the country. Pynchon, Lee & Co. occupy, for their grocery and provision establishment, the portion of the ground floor not taken up by the office of the bank and the stairways leading to the upper stories. The principal entrance is from Main street. This leads to the second story. This floor is designed for offices, and is occupied by the business office of the Springfield Gas Company, Messrs. Chapin & Lee's insurance office, and has besides one or two other offices for rent. Burnham's American Business College is located in the third and fourth stories, the various halls, offices and recitation rooms of that institution taking in all the available space. The front on Main street is 56, on State street 89, and on Market street 59, feet. The upper story is a French roof. The building is constructed of brick with brown stone trimmings, and in a mixed style of architecture which is at once dignified and attractive. The substantial appearance which the edifice has even to the eye of the casual observer, and the numerous evidences of skill and taste which a close inspection adduces, testify to the wisdom of the officers of the institution in securing George Hathorne of New York to furnish the plan for the building; and Royal Harrington and J. M. Currier of this city to superintend the mason work and carpentry. The total cost of the structure has not been made public, but it is safe to say that it is the most expensive, as well as the finest, public building in Western Massachusetts.

The new building of the MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY, on Main street, reflects credit to the proprietors and the builders. It has a front of 64 feet and a depth of 138 feet; and is four stories high. The northern portion of the first floor is occu-

pied by the offices of the Merchants' Union Express Company which extend to Market street. J. Strain's dry goods establishment is in the southern apartment, fronting Main street. This extends back 90 feet. Beyond, with an entrance from Market street, is a seed store of B. K. Bliss. Between the dry goods store and the express office is the entrance from Main street to the stories above. On the north half of the second floor are located the various rooms of the company's office. The Young Men's Christian Association have their rooms in the south part of the same story. The third story is at present not rented and remains in two large halls, to be partitioned into smaller apartments as tenants may demand. The northern half of the upper story has not been rented. The other portion has been taken by the Mt. Horeb Lodge of Good Templars, and they are having fitted up there a hall for the meetings of the several societies of that order in the city. Above the first story the building is separated in two portions; one of 90 feet, and the other of 38 feet, depth. The former is to be occupied as mentioned above. The space between the two portions is 10 feet. The second floor of the rear portion is occupied by the tailoring work-rooms in connection with G. D. Richardson's establishment, and by the electrotyping rooms of Lockwood & Mandeville. The third and fourth stories are as yet unoccupied. The building is of brick, with brown stone front and cornice. Work upon it was commenced in June, 1866, and will be completed in October, 1867. Architect, S. S. Woodcock, of Boston. Builder, C. S. Ferry, of this city.

On the corner of Townsley avenue and Main street is FRANKLIN BLOCK, owned by the Second National Bank and occupied by them and the Republican printing establishment of Samuel Bowles & Company. It is four stories high, has a front on Main street of 52 feet, a depth of 135 feet—extending through to Market—is built of brick with brown stone front; and is constructed throughout in the most substantial manner. The banking room is on the first floor, in the north-west corner of the building, having windows on Townsley avenue as well as on Main street. It is 22 feet wide and extends back 83 feet. The wainscoting is of black walnut. Next south on the same floor is the counting-room of Samuel Bowles & Company, of 28 feet front and a depth of 80 feet. It has reading-room tables and the office of the Franklin Telegraph; making it, thus, the real news center in the city. From the rear of the counting-room one door opens to the stairway leading to the rooms above and a passage way leading to the newspaper press-room; and another to a private office. Immediately from the landing at the head of the first flight of stairs, a door opens to the right into the printing-rooms of the establishment which occupy all this floor. On the next floor is the bookbindery. The fourth story contains the editorial and composing rooms. Beside the entrance from the counting-room there is a stairway from Townsley avenue leading to the various stories. The corner stone was laid June 13, 1866, and work has been carried forward till the completion of the block with the finishing of the banking-

room, July 1, 1867. The architect and builder was A. L. Chapin; Howe & Hastings did the brick work and A. S. Dwelly & Co. furnished the stone.

One of our enterprising builders, Mr. C. L. SHAW, who has erected many buildings in various parts of the city, completed for himself in April last a four-story brick block, on Main street, next north of Fallon's Block. It is constructed throughout in the most substantial manner, and is known as "Shaw's Block." It has a front of 70 feet. There are three large stores on the first floor, which, long before the completion of the building, were rented to first-class merchants. The second story contains a suite of music rooms and a dentist's office. In the third story there are offices, and the suite of magnificent rooms fitted up and occupied by the "Springfield Club." Two rooms, one 19 feet by 22 and the other 18 feet by 19, are separated by an entry, which is approached from the stair landing. Beyond these, and extending the entire depth of the building, is the hall or club room proper, 20 feet in width. Probably this organization have the most inviting quarters of which any similar association in the country can boast. These rooms are finished with chestnut and black walnut. The fourth story is occupied by a paper box manufactory. A. L. Chapin was architect; Howe & Hastings did the mason work, and Mr. Shaw, its owner, the carpenter work.

DR. C. S. HURLBUT has a fine block on the north side of Vernon street, a few steps from Main. It has a front of 26 feet, a depth of 86 feet, and is 55 feet high. There is a store on the first floor, and beyond it the broad stairway, easy of ascent, leading to the hall that runs along the west side of the second story. The front portion of this floor is taken up by the various rooms connected with the Doctor's dental office. Next in the rear of his quarters are various rooms suitable for offices. The third and fourth stories contain, each, a tenement with eleven rooms. The inconvenience of living up so high is, in a good measure, remedied by means of an elevator in the rear of the building, with which fuel, provisions, etc., are raised to both tenements. The cost of building was $16,000. It was completed April 1st, 1867. A. L. Chapin was the architect, Howe & Hastings, were the master masons, and Scott & Paige managed the carpentry.

THE HARTFORD AND NEW HAVEN RAILROAD commenced in April last the foundations of a large building between their track and Water street, and just north of Bridge street, and near the crossing; and it is now well on the way to completion. The dimensions are 300 feet long by 35 wide. Commencing at the southern end, the various freight rooms extend north in succession, occupying all the building until the northern 30 feet, in which, on the first floor, will be located the freight offices. This portion will be three stories high. The upper floors will be occupied for offices and storage room. This supplies a long felt want of the road and its numerous shippers in this city and vicinity. E. M. Reed, the superintendent of the road, was the architect. The brick work is being done by Howe & Whittemore of this city.

The proposed new building to be erected by the WESTERN RAILROAD on the site of the "Russell House," on Main street, will be a great addition to that portion of the city. It is to have a front of 100 feet on Main street, and a depth of 56 feet. It will be five stories high, the upper story being a French roof. The principal entrance is to be from Main street by a granite staircase leading to the second floor. The first, or basement, story is to be occupied by the American Express Company's office and the Western Railroad Paymaster's, Civil Engineer's, and Wood Agent's offices, and Conductors' rooms. The next story will contain the office of the President and Directors, which will be in the south-east corner of the building. The Superintendent's office is on the same floor, and is separated by a private room from the office of the President and Directors. Fronting on Main street, and in the north-east corner of the building, is the General Ticket office; next south. the Cashier's office, and still farther, the Attorney's office. The offices for the Auditor and the General Freight Agent will be in the rear. The plans for this edifice were drawn by H. H. Richardson of New York. J. M. Currier of this city has charge of the work on the building, and the purchase of material. It is to be built of granite from the quarries of Wm. N. Flynt, at Monson. The total cost will be not far from $130,000. The Western Railroad have partly completed their new engine-house, a few rods north of the old one, and between the track of the Connecticut River Railroad and the wall next to the river. It is a continuous building extended in octagonal shape around the turn-table, 50 feet in diameter. The building is 60 feet deep, and the distance across, when the structure is completed, will be 200 feet. From the turn-table seven sections of tracks, three tracks in a section, will diverge. Besides, there will be the main entrance track. Below the embankment wall on which this stands, and next to the river, the Connecticut River Railroad have in process of construction a breakwater, extending from a point some rods above, south, to the railroad bridge.

D. H. BRIGHAM & COMPANY, in order to meet the demands of their increasing trade, conceived the plan of converting the three stores in the Republican Block, on Main street, next north of Townsley avenue, into one sales-room. The first apartment in the corner was formerly occupied as *The Republican* counting-room, the next for the millinery establishment of D. J. Bartlett and the next by that of O. W. Wilcox & Co.; and the upper stories were all occupied by the editorial and composing rooms, the job printing rooms and book bindery of *The Republican.* The partition walls on the first floor were removed without damage to the building, and iron pillars and girders inserted, which made it as firm as before. The next floor is for the wholesale department; the third story, devoted to the cloth and clothing department, and the fourth to the work rooms of the tailoring trade connected with the establishment. Shortly after the completion of this room, ground was broken in the rear for the foundations for an addition, four stories high, and extending through, 75 feet, to Market street. The walls of this part are completed, and the

sales-room of the first floor of the front or main portion will soon be extended through to the rear of the new building, making, thus, a sales-room 52 feet front, and extending 144 feet, from street to street—a larger apartment than can be found devoted to this trade in any city of the State. The other stories will be taken up with the wholesale department, the cloth rooms and the work rooms, to correspond with the floors in the old block in front. Above the first story the two portions of the block are nearly separated by the space for stairs extending to the top of the building, and an airway. There are two passage ways, one on the north side of the building, and the other next to the stairs, on the south side, which connect the front apartment on the second floor with the rear one on the same floor, making both in fact one. Directly in the rear of the retail, or principal, sales-room, on the first floor, is to be located the general office of the establishment, which will be covered by a sky-light, on a level with the second floor of the building. A. L. Chapin is the architect and builder.

W. H. Wilkinson has erected on the south side of Taylor street, on the site of his shop destroyed by fire January 14, a brick building. It is five stories high, besides basement, 33 feet front, and 75 deep. It is to be used for the wholesale department of his harness and saddle manufactory, and will employ 100 hands. D. R. Jenks did the carpenter work, and F. J. Howe the mason work. Mr. Wilkinson also repaired a small wood shop in connection, which was partly destroyed at the same time with the larger one.

Directly opposite, on the north side of the street, and in the rear of their manufactory on Lyman street, is the new painting and finishing shop of the Wason Manufacturing Company, car makers, on the site of the wooden shop destroyed by fire on the 14th of January. The new one is built of brick. The width is 70 feet, and the length 100.

George Stebbins completed, during the past autumn, on the west side of North Main street, a few rods north of Auburn, a brick block, three stories high, 55 feet front, and 55 deep. It contains on the first floor two stores, with entrance to the stairway between them. The store in the south corner is occupied as a meat market by Houston & Smith, and the other by Houghton & Eddy, for a grocery store. The north half of both the upper stories is fitted up for a tenement, and the other portion for another tenement. Each contain eight rooms. The cost of the block is $7,500.

T. M. Granger commenced and completed during the spring a block at No. 252 Main street, next south of the Union House Block. It is 25 feet front, 60 feet deep, and three stories high. On the first floor there is a market, and a tenement each on the second and third.

F. J. Viner has nearly completed, on Dwight street, a brick block, three stories high, 30 feet by 40, with an L for engine-room and dry-house. Brooks & Eaton did the wood-work. This building he designs for a manufactory of mouldings, and will shortly remove to it his establishment on Sanford and Main streets.

D. B. MONTAGUE has nearly completed on East Bridge street, near Main, a block three stories high, 72 feet on the latter street by 35 deep. It has a wood frame, with fire-proof brick walls and cornice of galvanized iron, making the building fire-proof. On the first floor there will be three stores, on the second offices, and on the third a hall. D. R. Jenks did the carpentry, and G. W. Hawks & Co. the brick work.

O. FRARY built during the spring a shop on South Main street, below Mill river, for KEITH & BUMSTEAD, batting makers. It is built of wood, is 40 feet by 50, two stories high, and capable of producing 700 pounds of batting per day.

COLTON & PIPER built, during the winter and spring, a shop near Water street, at the foot of Lombard, for carrying on the manufacture of sash and blinds. It has since been purchased by W. W. THAYER. It is built of wood, is 60 feet by 120, and two stories high.

C. C. MOULTON has completed for HENRY BAILEY a carriage shop on Court street, in the rear of Fountain Row. It is two stories high, and built of brick. He has built for A. S. DWELLY & Co. an office on Lyman street.

G. R. TOWNSLEY has built next north of the "lobster block," on Main street, a store, which RICE, WIGHT & Co. have rented for their grocery business.

The old buildings of the American Machine Works on the hill, have been purchased of Homer Foot, trustee, by a number of gentlemen, who, under the name of the NEW YORK WATCH COMPANY, are proposing to commence here the manufacture of watches. Of this Company O. P. Rice is superintendent. The buildings will be extensively repaired and enlarged, and furnished with suitable machinery for the new business.

BROOKS & EATON are building for the INDIAN ORCHARD MILLS a building to be used as a picking room. It is 125 feet long by 32 wide, and one story high.

TWO NEW SCHOOL-HOUSES are being built by the city to supply the demand for more accommodations for the pupils, the number of which is so rapidly increasing; one on Oak street, near Walnut, to receive the grammar and intermediate schools on East Union and Oak streets, now under the superintendence of Mr. Barrows, and the other at Indian Orchard. The Oak street building, upon which work was begun in the spring, is to have a front of 92 feet, a depth of 61 feet, and to be three stories high. It is to have a hip roof with four small gables. At the center, in front, folding doors open into a hall, 22 feet wide, and extending from front to rear, the entire depth of the building. On either side of this hall are two school-rooms, each 25 feet square. From either end of the hall stairs ascend to the second floor. The rooms and hall of the second story correspond in size and arrangement to those in the first. From either end of the hall a stairway leads to the third floor. Of this the southerly portion has two school-rooms to correspond with those below, but the northerly portion is all in one hall, 58 feet square. The building is to be entirely of brick, with brown stone trimmings. Hubbard &

Hendrick are the builders, doing all the carpenter work themselves and sub-contracting the mason work to Henry Gilman. The entire cost will be $38,000. The architect of this building and the one at Indian Orchard, as, also, of the edifice on Elm street, was J. M. Currier.

Work was commenced on the new school-house at Indian Orchard early in the spring, and the structure will be finished by April 1st, 1868. Brooks & Eaton are the builders, doing the carpenter work themselves, and letting the mason work to J. W. Hawks & Co. Powell & Tucker do the painting. The cost will not be far from $25,000. It is two stories high, besides basement and French roof. The front, on the east side, is 71 feet, and the depth, including the porch, is 61 feet, the depth of the main building being 52 feet. From the porch there are two doors opening into a hall 10½ feet wide, and extending the entire depth of the building. A space of 16 feet width on either side of this hall, extending to the side walls, is taken up, on the right by entries and stairway to the stories above; on the left, by a stairway to the upper stories and one to the basement. On either side of the center hall are school-rooms 28 feet by 32. The apartments of the second story are similar in size and arrangement to those of the first. The space between the school-rooms is occupied for a recitation room, corresponding to the center hall below. In the third story there is a school-room on the north side, to correspond to those below.

GREEN-HOUSES.

The erection of green-houses has been quite an item in the repairs and ornamenting at the residences of several of our citizens. Colonel J. M. THOMPSON has erected one on the east side of his lot at "Highland Place." It is 145 feet in length and 40 feet wide at the octagon under each dome. The hight of the northerly dome, in which is the conservatory, is 25 feet; next south is a forcing grapery, 50 feet in length, and then the southerly dome, 45 feet high, under which, in octagonal shape, is the forcing grapery. In the conservatory is a curious pile of stone, containing grotto, lake and hill. Mr. Lord of Syracuse, N. Y., whose services have been engaged by the most distinguished citizens of the country, was the designer and builder of this green-house, as he was the designer of the one built by a Springfield mechanic for D. B. WESSON, at his residence on High street. This latter is 105 feet long. The easterly portion is used for a cold grapery. The octagon, in which is the conservatory with curious rocks, grottos and lake, is 30 feet across, and the hight of the dome is 35 feet.

A. MIELLEZ, a horticulturist of rare skill and taste, and of extended experience in Europe and this country, who has been proprietor of two green-houses in this city—one at Long Hill and one on Central street—has given up operations in those locations, and purchased a tract of fertile land on the Plainfield road, near John street, at the south end of Round Hill. This he has already begun to make "blossom like the rose." He has half an acre of verbenas and flowering plants; and fruit plants are set out in thick profusion. He will soon have completed, green-houses 100 feet long, built together with a

continuous roof, so as to make one green-house with an area of 1,000 square feet, which will eventually be increased to 14,000.

HOUSE BUILDING.

House building has taken rapid strides during the past year. Many of our citizens have erected beautiful residences, and landlords have largely increased the number of their tenement houses. There has been manifested, not only by those who built houses for their own use, but by those who furnished them for those who hire homes, a desire to conduce to the real wealth and beauty of the city, and the comfort of its inhabitants, by the erection of substantial and elegant houses.

Horace Kibbe's mansion, on the corner of Federal and East Worthington streets, which was commenced in June, 1866, is rapidly approaching completion. Henry Austin, of New Haven, Conn., was the architect, Royal Harrington, of this city, the mason, and Marien & Prescott, of this city, the carpenters. The cost will probably exceed $30,000. It is of a style of architecture of a mixture of Grecian and Doric. It is built in the form of a cross, the principal front being on Federal street. From this front to the opposite, or west side, the distance is 44 feet. From north to south it is 78 feet; to the limits of the piazzas, 96 feet. The walls are of brick, and will be covered on the outside with stucco. They are 29 feet high. The tower on the east side is 46 feet high. The columns are an imitation of stone, beautifully worked. The roof is covered with variegated slate. There are twenty-four rooms. The front parlors are finished with mahogany and black walnut, the dining and sitting-rooms with butternut and black walnut, and the rooms in the L with chestnut and black walnut. From the observatory in the tower a fine view can be had of an extensive range of country, on both sides of the Connecticut River, for a great distance, north and south.

Currier & Richards have recently completed for N. W. Talcott on Round Hill, a very beautiful and substantial residence. In size it is 35 feet by 50, besides a spacious L; and is two stories high. It is built of brick with stone and imitation trimmings. The architecture is of the cottage style. The twenty rooms into which the house is divided, are conveniently arranged and finished in the most tasteful manner. The cost is about $20,000. From the house there is a fine view of the Connecticut Valley. The same builders have nearly completed for Joseph Stone, on North Chestnut street, a solid and well made mansion, in the Grecian style of architecture. It is 44 feet square, two stories high, with an L 24 feet by 28. It contains twenty rooms. Mr. Stone's son, Harlan P., of the firm of West, Stone & Co., will occupy it with his father. The site is one of the most desirable in the city. From the balconies there are fine views of the Armory, Round Hill, the Memorial Church edifice; and, to the north, the Connecticut Valley.

At No. 2, High street, Charles W. Rice has a beautiful new house. He commenced it the last week in February, and had it completed ready for occupancy the 1st of June, on which day he

moved into it. It is built of wood, is two stories high, 26 feet front, 46 feet deep, and has an L in the rear, 15 feet by 20. It contains 10 rooms, conveniently arranged, finished with chestnut and black walnut; and has floors of selected southern pine. It is painted chocolate, and is a model dwelling.

The house at Nos. 56 and 61, on the same street, has been purchased of R. R. Brown by D. C. Horton, who is adding to the rear a transverse L two stories high, and containing as much room as the original building, making of the whole four tenements.

H. L. Niles commenced early in the Spring, a two story wooden dwelling-house on the south side of Sargeant street, near Fulton. Before completing it he sold it to J. C. Tibbetts, of the firm of Cutler, McIntosh & Co. The main portion of the house is 28 feet square, with hip roof. From the rear an L, 15 feet wide, extends 30 feet. The cost of the building will be $5,000. On the same side of Sargeant street, and near Main, L. C. Sheldon has a house in process of erection. It is of wood; two stories high, besides a French roof. It is 24 feet front, with a wing of 19 feet; and 41 feet deep, with a rear L, 16 feet by 17. The cost will be about $6,000. Other vacant lots in this vicinity will soon have first class residences erected upon them, the owners becoming more and more aware of the fact that the locality is a very desirable one. On the south side of John street, Frank Fuller has a new, two story, wood house, 25 feet front, with a wing 5 feet wide and 30 feet deep, and with an L in the rear 15 feet by 26. On Morgan street, which is about to be opened, from the Cabot road east, next north of Carew, J. W. Webber is soon to erect a fine dwelling-house, two stories high, 23 feet by 50.

S. J. Brooks has a new house on Summer street, which was built for him by Vose & Brother. R. Vose, of the same firm, has built for himself a house at No. 33 Summer street; and at No. 20, on the same street, Thomas Hatch has a new house. G. O. Vose has built for himself a new house at No. 20 Court street; and Scott & Merritt have nearly completed one on the corner of Harrison avenue and Dwight street for D. C. Pitkin. This is two stories high, and 40 by 43. It contains four tenements. Scott & Merritt have built a four tenement house, on Sharon street, for William Clogston, and have in process of construction, on the corner of Grant and Federal streets, a dwelling house for William Taylor. Warren Mills has built a house on Pendleton avenue for L. P. Alden, one on Carew street, for W. H. Allis, and one on Orleans street for Cyrus E. Rogers. He has completed one on Bradford street, to rent or sell. It is a $5,000 house, and two stories high. He has another nearly done, on Franklin street, which is for sale. Another, on Massasoit street, he constructed for J. E. Otis, and still another, on North Chestnut street, for Mrs. Lucy Otis. Josiah Hitchcock is building two houses on Franklin street, to rent. Linden street has several new residences. Frank Fuller owns one, Thomas Gleason another, and Mrs. Mary Bacon another. A. A. Adams is building one on this street, to rent or sell. Charles Hovey has a new dwelling on Ringgold street. Silas Cook is

erecting one for M. L. CHILDS, on the corner of Chestnut and Carew streets. Mr. SCHLESSENGER is erecting for himself a dwelling on Carew street. A. D. MILLER has a new two-story house on Carew street, east of Chestnut.

GEORGE STEBBINS is erecting a residence on the Cabot road, two stories high, the main part 30 feet by 40, with L. J. M. Warriner has just completed for M. A. CLYDE a tenement block on the corner of Chestnut and Congress streets. It is two stories high, besides French roof, 32 feet by 82, the length being on Chestnut. It contains four large tenements. C. C. MOULTON has rebuilt his carpenter's shop, on Worthington street, which was destroyed by fire in April last. He built for Mrs. MARY SOLACE, at 143 Chestnut street, a dwelling-house, two stories high, 40 feet front, by 30 deep. Silas Cook has built, on Congress street, a house, two stories high, for JOHN HENNESSEY, and one on Worthington street for HENRY GREBENSTEIN. W. H. MCKNIGHT has a new residence on the corner of Spring and Pearl streets. It is two stories high. On Swan street A. MARA has a new house. F. R. LADD is making an old house new, on Pendleton avenue. One new dwelling is completed on King street, east of Hancock; and several west of Hancock, on King, are being erected. LEON BELLVILLE is putting up a house for himself on Hancock street, north of Green. At 85 Walnut street, Mr. BELCHER, from Williamsburg, has a new house. BENNETT & KNIGHT, former proprietors of the wood-yard on Central street, have completed a two-story house on the corner of Central and Pine. It is 30 feet by 30, with an L, 16 by 18. C. S. FERRY has nearly completed for himself a residence on the east side of Chestnut street, north of Carew. It is two stories, 26 by 30, with an L 18 by 22, and will cost $6,000.

G. O. Kingsbury has erected four new tenement houses on Taylor avenue. They are to rent or sell. He has one on Union street which remains unsold. A house on Margaret street, west of Water, he built and sold to F. GROUT. A two-story double tenement house, on Franklin street, he built for O. DODGE; one of four tenements for JAMES BURKE, and one with two tenements for WILLIAM MOORE. He has constructed nine houses, containing twenty-four tenements, on Congress street, several of them on his own lots. He has disposed of nearly all of these. Mrs. MARY A. NOYES has one, MICHAEL HAYES one, PETER MCMULLEN one; JOHN LYSAGHT, STEPHEN CONLIN, and D. MANNING one each. On Morris street, he has built one for F. A. STROUD, two for WILLIAM T. NOBLE, and has one in process of construction for J L. SCOTT, one on Sharon street for MICHAEL SULLIVAN, and one on Whitney avenue and Water street for W. PEASE. He will erect, in the fall, two houses on Water street, and one on Margaret street. He was the builder of Granger's Block, on South Main street, and George Stebbins' Block, on North Main street.

ELIJAH W. BLISS has a house nearly completed, on the corner of Main and William streets. It is built of brick, is two stories high with French roof, 42 feet on Main street by 36 feet deep, and having an L, 18 feet by 20, and two stories high.

GET THE BEST.

WEBSTER'S DICTIONARY,

UNABRIDGED, NEW ILLUSTRATED.

OVER 3000 FINE ENGRAVINGS.

10,000 Words and Meanings not in other Dictionaries.

A necessity to every intelligent family, student, teacher and professional man. What Library is complete without the best English Dictionary?

"Superior in most respects, to any other English Dictionary known to me."—*Hon. George P. Marsh.*

"THE NEW WEBSTER is glorious—it is perfect—it distances and defies competition—it leaves nothing to be desired."—*J. H. Raymond, LL. D., Prest. of Vassar College.*

"All young persons should have a standard Dictionary at their elbows. And while you are about it GET THE BEST; that Dictionary is NOAH WEBSTER'S —*the great work unabridged.* If you are too poor, save the amount from off your back to put it into your head."—*Phren. Journal.*

"Every *farmer* should give his sons two or three square rods of ground, well prepared, with the avails of which they may buy it. Every *mechanic* should put a receiving box in some conspicuous place in the house to catch the stray pennies for the like purpose. Lay it upon your table by the side of the Bible; it is a better expounder than many which claim to be expounders. It is a great labor-saver; it has saved us time enough in one year's use to pay for itself; and that must be deemed good property which will clear itself once a year. If you have any doubt about the precise meaning of the word *clear*, in the last sentence, look at Webster's nine definitions of the *v. t.*"—*Mass. Life Boat.*
